

AMENDMENT TO THE SPECIFICATION

Please amend the specification by marked up replacement paragraph(s) as follows.

Please replace paragraph 2 on page 4 with the following:

--Figure 6B shows a conventional system for providing Internet access to a residential user with a LAN. The PCs 633 and 635 at site D communicate over a LAN 637. The LAN 673 637 connects to a DSL modem 641 614 to provide connectivity for PCs 633 and 635 to the Internet 623. As indicated previously, the ISP 619 views the LAN 673 637 behind DSL modem 641 as a single dial-up user.--
